

Class: 4-2 Jane Tomlinson

The Romans and Their Impact on Britain

Why were the romans so powerful and what did we learn from

Teacher: Miss Ward
Miss Parker and Miss
Sylvester also help in
class. Our **PE** day is:
Tuesday and **Swimming** is
on Wednesday.

Our Learning

Literacy:
In Literacy we will be reading 'Escape from Pompeii' which is a story with a historical setting. We will then use this as the theme for our own writing. We will also be reading other books linked to our Roman topic to inspire us.

Numeracy:
In Numeracy we will be studying place value including negative numbers; addition and subtraction using the inverse to solve problems, 2D shape and measures, in particular time. We will also be recapping our multiplication tables.

CLICK Topic:
In our topic we will be looking at The Romans and studying life in Ancient Rome and Roman Britain.

Computing:
In computing we will be learning all about internet safety and how the internet works. We will look at how we can protect ourselves online and how to play games safely and healthily.

Science: We will be looking at Electricity including being safe in the home. We will investigate circuits, switches and conductors and insulators.

You can help us by...

Remembering to send your child to school with their PE kit and swimming kit; helping your child with learning their times tables and listening to them read.

Citizenship

British values:
At NLC we have decided as a campus that our British Values will incorporate: Mutual Respect, Democracy, and Behaviour for Learning, Tolerance and Honesty. This half term, we will be thinking about new beginnings. This will help us to set targets and enjoy a successful start to our new year group and our learning. We will also focus on democracy and what it means to be British.

Being Creative!

Creative Arts:
As part of Art and Design Technology we will be looking at creating Roman style mosaics, making our own tile designs. We will also be improving our drawing and sketching skills.
In Music we will be looking at music inspired by animals and learning to play the ukulele.

This Half Term's Home Learning:

- One piece of literacy (key spellings) and numeracy will be given for each week. Please continue to learn times tables.
 - Pupils can research facts about the Romans topic (ideas are given in the booklet) and present this research in any style found to be appropriate.
 - Homework will be given as a booklet at the start of the half term, and should be returned by the Wednesday of the final week.
- Please note: weekly Literacy and Numeracy home learning tasks linked to each week's objectives are contained in the booklet, which follows our Home Learning Policy.*
