

Class: 6 – 3 Joe Root

The Golden Age

Creative Learning Inspires Clever Kids

Our Learning

Literacy:

We are studying a range of stories from other cultures, looking at the features of these and learning about how characters and settings are developed. We will use this to inspire our own writing. We are also going to be having daily grammar and spelling lessons in preparation for SATS.

Numeracy:

We will be working in maths groups. We are looking at ways of working with number, problem solving, place value and using decimals. We will also be reviewing written methods for addition, subtraction, multiplication and division.

CLICK:

In Computing we will learn about how to be a 'Global Digital Citizen'. This will teach us how to use the internet effectively and safely to search for information which will link with our topic work.

In our Science we will be investigating light. In this we will learn about how light travels, shadows and reflection.

Teacher: Mr Tate
Mrs Cooney and Mrs Troop also work in our class.
My PE days are: Monday & Friday
My ICT day is: Monday

You can help us by...

Remembering to send your child's PE kit on the correct days; encouraging them to read and learn their times tables at home and to complete their home learning each week.

Citizenship

British Values

The British Value we will be focussing on is Democracy. We will discuss what it means to live within a democratic society, discussing the rights and responsibilities we all have within the larger school community. We will put democracy into practice when we elect our new school councillors for this school year.

Being Creative!

Creative Arts:

As creative artists, we will:

Use drama in exploring our literacy texts.

We will be having a CLICK inspiration day where we will be designing and building our own step pyramid, Mayan headdress and clay pots and beads.

This Half Term's Home Learning is:

Children will be sent one piece of Numeracy, one piece of either Reading or Writing and a piece of grammar or spelling. This will be set on a Friday and needs to be returned by the following Wednesday.

For your topic home learning, we would like you to either:

1. Do your own research (using either the internet or books) about Joe Root. This could be presented as a Power Point presentation, a Word document or a handwritten piece of work.
2. Create a piece of art inspired by Mayans.

We will share these in final week of this half term! It is expected that this should take a number of hours, as it is to be completed throughout the half term but children should try to spend about 30 minutes each week on it.

Children who successfully complete homework will be rewarded in class.
