

# Year 6 Spring 2 2019

## The Victorians

### Literacy

We will be focusing on improving our writing throughout this half term, linking it to our CLICK topic of The Victorians. We will also be editing and improving our work, so that we are always trying to make our writing more interesting and to a high standard.

### Numeracy

This half term we will be working on algebra, shape and space and the different ways of working out averages. We will also be looking at applying the knowledge we've learnt to real life situations.

### Science

Year 6 will be learning about Living Things. We will look at what exactly this means, what differences and similarities living things have and how we classify certain plants and animals.

### R.E.

We will be trying to answer the question 'What matters most?' from the perspective of different religions and beliefs from around the world. Are some of them the same or are they always different?

### Computing

We will be using our computing time for SATs revision, such as Read Theory, Spelling Shed and Times Table Rock Stars.

### CLICK

We will be learning about The Victorians – who they were, where they lived and what they did that is significant in world history today. We will also look at how schools have changed since the Victorian times.

### Homework

All children will be given a workbook containing a selection of maths, reading and SPAG homework to complete over the half term.

They should also read their reading book to an adult at least 3 times a week at home and should keep practising their times tables up to 12x12. Children who complete homework will be rewarded with Housepoints.

#### **You can help us by,..**

Helping your child to bring their PE kit on the correct days and their reading book to school EVERY day.

**Last half term we enjoyed...** spending time looking at THRIVE ! We have been writing kind things about our friends!
